

# ReadSpeaker TextAid Documentation

This is a tutorial on how to use ReadSpeaker TextAid from D2L. This Document is divided into two sections, “How to Load a Document into ReadSpeaker” and “How to Listen to a document using ReadSpeaker”

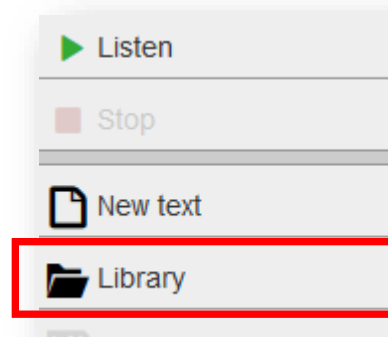

---

## How to Load a Document into ReadSpeaker

- Access your course with the D2L environment
- From your navigation bar, click “Resources”
- Click “ReadSpeaker TextAid”

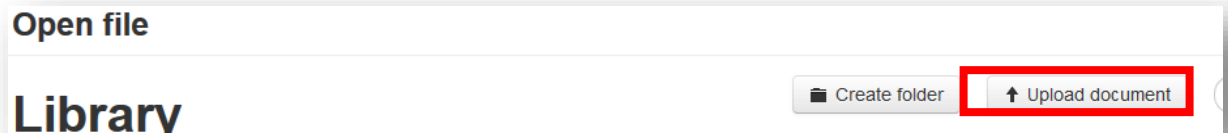

- You will be taken to the ReadSpeaker website
- Load the file in which you want to listen to.
- On the left hand side of the screen, click the “Library” button

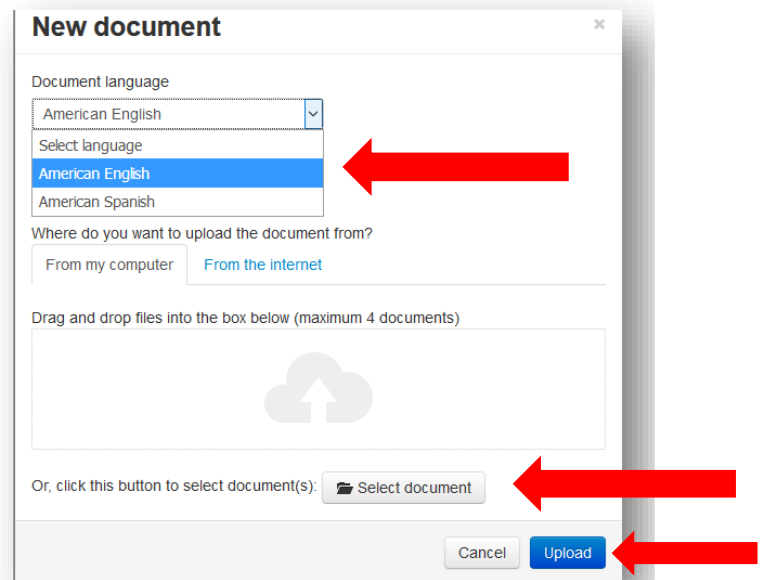

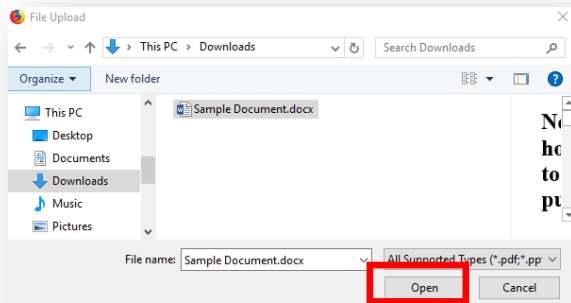

# eLearning

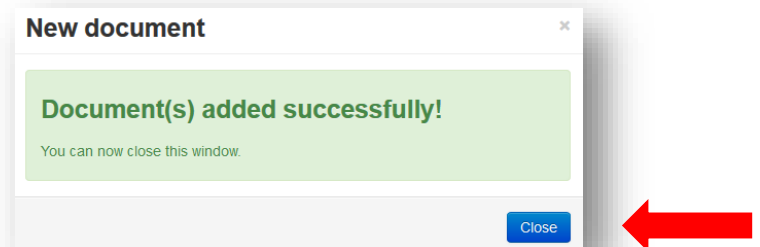

- Click the “Upload document” button:

- Select “American English” or “American Spanish” from the document language dropdown menu
- Browse to the document using the “Select Document” button and select the file
- Click the “Open” button
- Click the “Upload” button

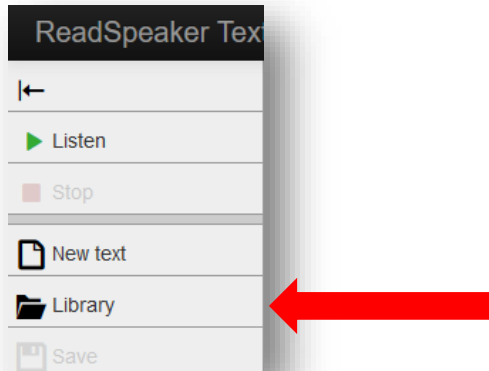

- Once the file is uploaded, click the “Close” button

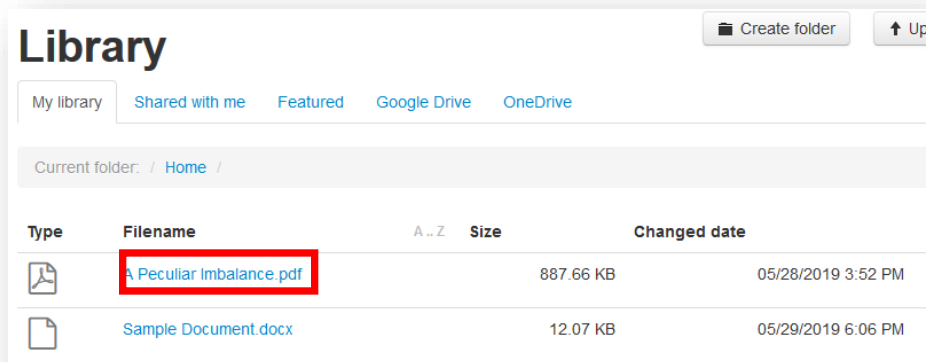

## To Listen to an Uploaded File Using ReadSpeaker TextAid

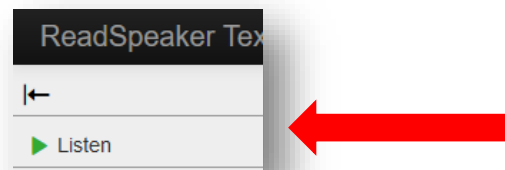

- Click the “Library” tab on the side bar:

- Select the document you would like to listen to:

- Click the “Listen” tab on the side bar to listen to the document:

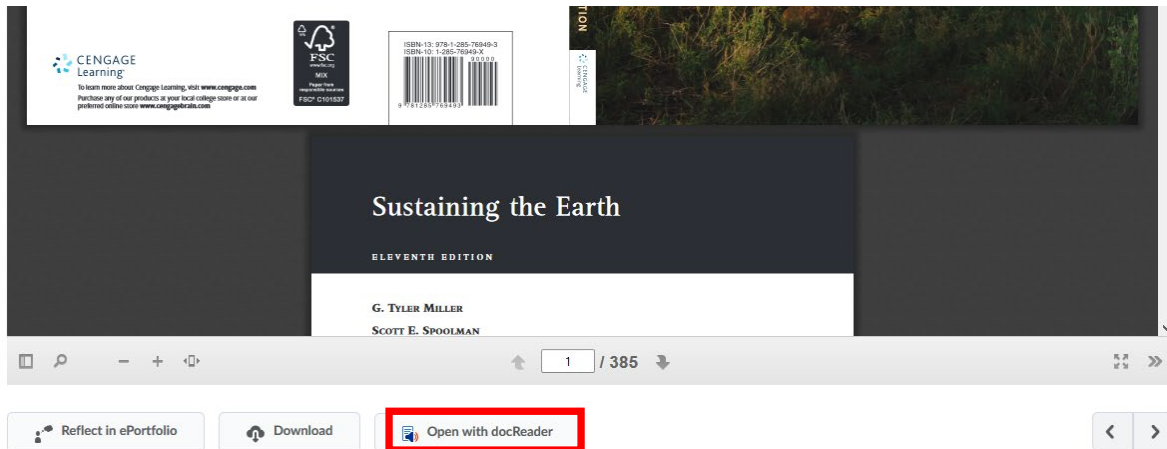

# eLearning

To Listen to a Document Already in D2L

- Click on the document
- Scroll down and click the “Open with docReader” button:
