

Brightspace and Beyond Week

Online via Zoom

August 9-13, 2021

This week-long workshop is designed for all faculty. Whether you have been teaching online for several semesters or will be for the first time this year, this hands-on workshop will be of benefit to you. Facilitators will focus on beginning tools and recent updates made to D2L Brightspace, as well as other academic technology such as VoiceThread, Teams and O365 tools; MediaSpace and Kaltura Capture; and Zoom.

Each day consists of two hours of instruction followed by one hour of guided work/application time. Join us online (Zoom invitation will come following registration) from 9:00-12:00 Monday through Friday, August 9-13.

[Register here!](#)

Upon completion, participants will be able to:

- Describe the key elements of a well-designed online course (consistency, logical organization, clarity of expectations, and accessibility)
- Demonstrate the use of best practices in the design of their online courses
- Describe the relationship of student learning outcomes, learning activities, and assessments in a well-designed online course
- Use D2L tools and components effectively and appropriately to deliver their online courses
- Incorporate academic technology appropriate to the design and delivery of their online course(s)
