

# Import a D2L Course Package from Your Computer into a new D2L Course Shell

This document shows how to import a D2L course package to a D2L site from your computer.

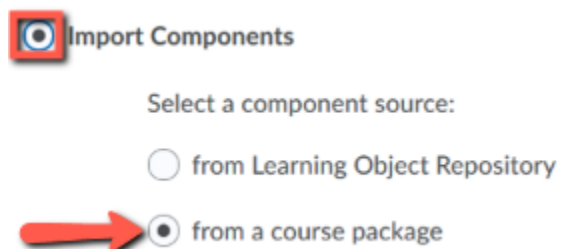

1. Log into the course you would like to add content to
2. From inside the course, click **Course Admin**

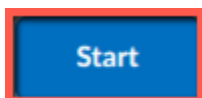

3. Click the **Import / Export / Copy Components** link:

4. Scroll down the page, then click **Import Components**
5. Click **from a course package**:

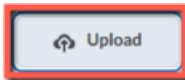

6. Click the **Start** button:

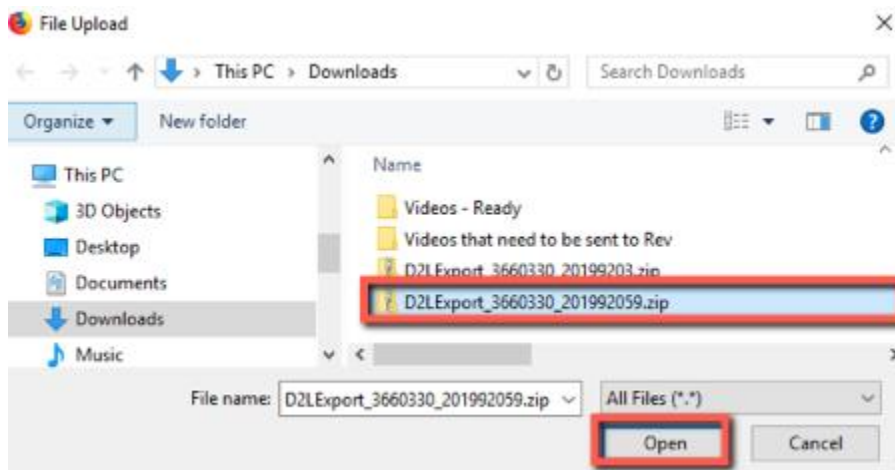

7. Click the **Upload** button to select your .ZIP file:

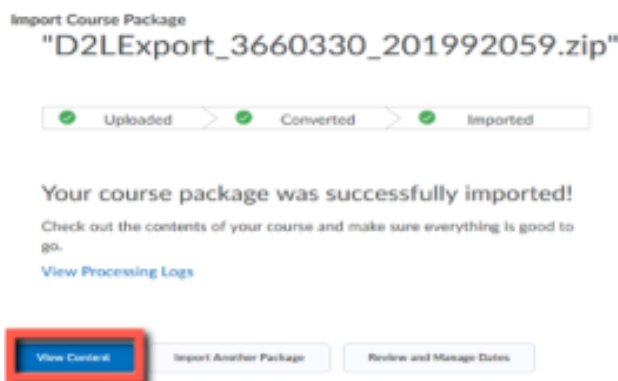

8. Locate your file and select it
9. Then, click **Open**:

10. Click the **Import All Components** button:

11. A message will appear that says, Your course package was successfully imported!:
12. Click **View Content** to see the uploaded content in your course:

Importing a D2L Zip Course into D2L Brightspace
