

Availability Dates & Conditions

The settings in the Availability Dates and Conditions section control when students are able to access an activity such as an assignment, quiz, or discussion. If you would not like any limitations on the availability, you do not need to include a Start Date, End Date, or Due Date.

Revised 8/9/23

Start Date & End Date

Click in the date field and use the date picker to select the timeframe the activity will be available for students.

- **Start Date:** This is the first date students will be able to interact with the activity.
- **End Date:** The deadline for students to access the activity. When an End Date is set, students will not be able to access the activity after this date.
